In the event the shipment will not be available for acceptance by the consignee at the airport of destination within three hours after the scheduled arrival time of the planned flight, the carrier will notify the consignee and will determine if the consignee will accept delivery of the shipment at the destination airport within 3 hours after the time of notification of arrival or actual arrival of the shipment, whichever is later. If the consignee will not accept delivery of the shipment within such period of time, or if the carrier is unable to contact the consignee, carrier will retain the shipment in a secure area at the destination, up to a maximum of 5 days.

The terms and conditions of the air waybill and the carrier's tariff shall extend to such armored vehicle or vehicle with an armed guard hired by the carrier. All charges incurred by the carrier applicable to any hiring pursuant to this section will be at the expense of the shipper and consignee and will attach to the shipment.

Transportation is subject to the rules, rates and charges in effect on the date of acceptance of the shipment by the carrier.

With respect to gratuitous carriage, the carrier may exclude the application of all or any part of this tariff.

This tariff and the published rates and charges are subject to change without notice except to the extent otherwise provided by law or government regulations or order; as long as no such change shall apply to contract of carriage after the date of issuance of the air waybill by the carrier.

No agent, servant or representative of the carrier has authority to alter, modify or waive any provisions of the contract of carriage of this tariff.

All shipments being charged to an account require backup documentation such as a purchase order or bill of lading, indicating the account number to be charged. Failure to provide such documentation may result in refusal of shipment.

3.3 Compliance with Government Regulations

The shipper shall comply with all applicable laws, customs, and the government regulations of any jurisdiction to, from or through which the shipment may be carried. This includes those relating to the packing, carriage or delivery of the shipment, and shall furnish such information and attach such documents to the air waybill as may be necessary to comply with such laws and regulations.

Except as otherwise provided, when a local or joint rate is established for application over a particular route from point to point of destination for a specific service, such rate is applicable over such route, unless it is higher or lower than the aggregate of intermediate rates over such route for such service.

A shipment moving on one air waybill over the lines of two or more carriers shall have for its entire movement the declared value applicable to the shipment over the lines of the originating carrier unless a higher value is declared on the air waybill at the time of receipt of the shipment from the shipper, and in such event the additional transportation charge applicable over the lines originating carrier shall apply to the shipment for its entire movement.

Shipments of gold, silver, platinum and Dore bullion will be accepted only if the actual value is declared on the air waybill at the time of receipt of the shipment from the shipper. Charges will be assessed on the weight and value of the shipment.
